

**STARTUP
HARAMBE**

#StartupsHarambe

Run 2026

Kampala, Uganda

EXECUTIVE SUMMARY

Uganda's startup ecosystem does not lack capital; it lacks ventures built for investment and a local investor culture willing to write cheques into early-stage businesses. Students graduate trained to seek jobs, not build fundable startups, while local capital stays locked in savings, treasury bonds and hard assets.

Startups Harambee Run / Capital Harambee Run; is a pipeline-building initiative, not a charity run. It is an annual, inter-university fundraising run between university campuses across Kampala onto a single finish line at Makerere University, mobilising resources to strengthen three interdependent groups: student innovators, entrepreneurs/ startups and investors.

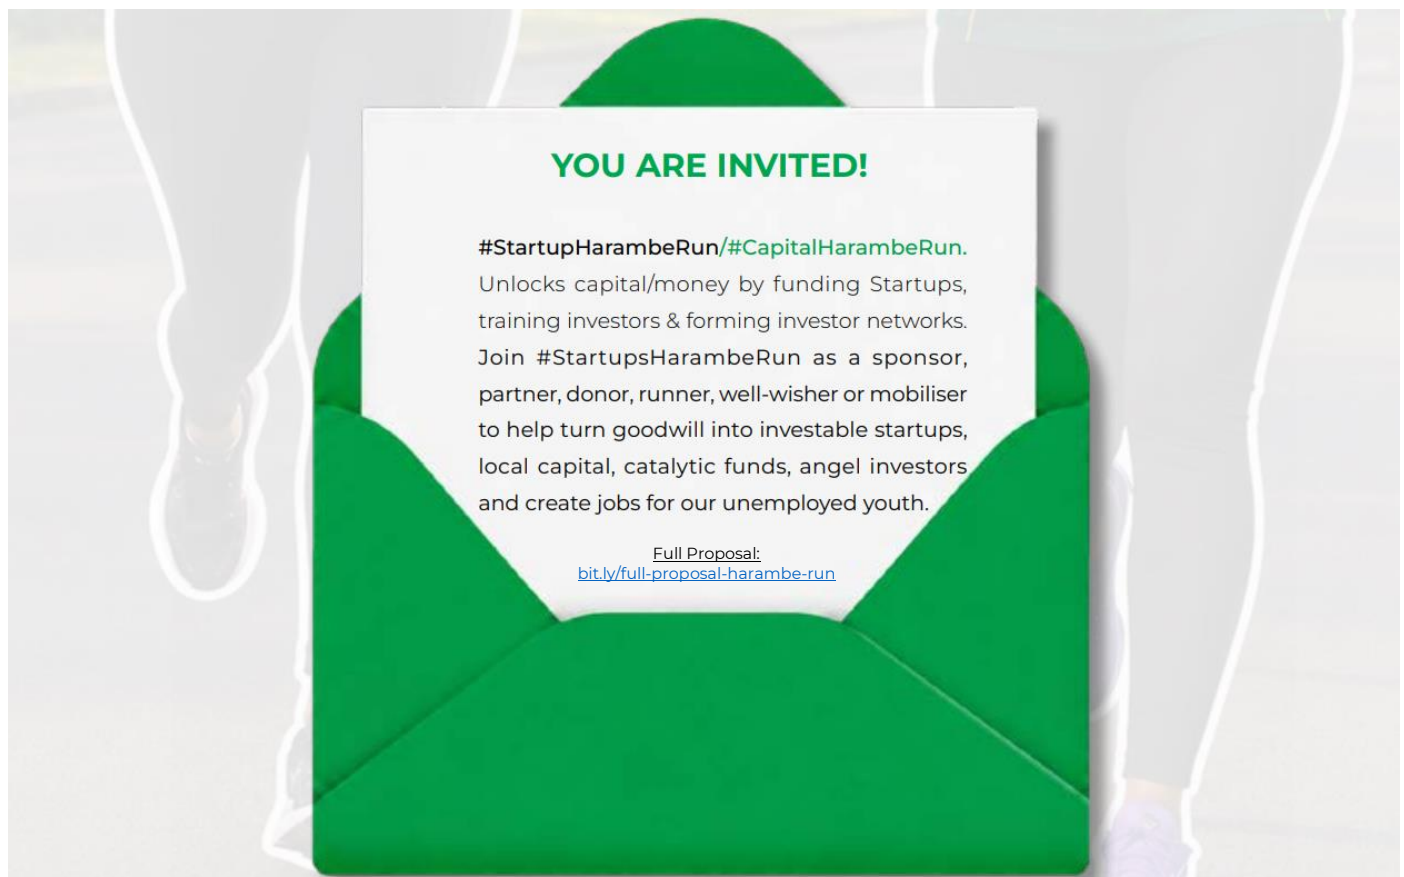

Organised by TechBuzz Hub; a center of excellence in innovation (10 years of influence, 15,000+ entrepreneurs supported) under its Startup Funding Vehicles (SFV) initiative which has already trained 650+ Ugandans in angel investing, published [Catalysing Angel Investing in Uganda report](#) together with African Federation of Business Angels Network (AFBAN) and Fie-Consult; *the Startups Harambee Run turns one annual event into permanent ecosystem infrastructure enabling; enterprise growth, job creation and Uganda's 10fold growth.* <https://bit.ly/state-of-angel-investing>

The Mobilised Resources Will

- Run investor-facing startup development programs in 10+ universities.
- Provide catalytic funds to over 100 startups.
- Train 50+ angel investors and form at least 5 syndication angel investor networks in Uganda.

2026 Run Targets

UGX 3.75B Target raised through tickets, pledges and donations	5,000+ Participants, incl. 1,500+ university students	40+ / 50+ Investors engaged / Partners supporting the cause	4,000,000+ TV, radio and social media impressions
--	---	---	---

ABOUT THE RUN

Startups Harambee Run is an annual, inter-university fundraising run mobilising diverse stakeholders around one mission: strengthening Uganda's entrepreneurship-investor pipeline by preparing students' ideas, supporting entrepreneurs and their ventures and training local investors to deploy capital into local startups.

29 Nov 2026 Run Date	Makerere Freedom Square Finish line	10+ Campuses	5,000+ Runners expected
--------------------------------	---	------------------------	-----------------------------------

Objectives

- Raise funds to run investor-facing programs for student-led startups across participating universities.
- Create a recurring, highly visible platform supporting the student to entrepreneur to investor pipeline.
- Strengthen job creation, entrepreneur support, investors awareness and industry-academia partnerships

The Innovation Hubs

With all hubs onboard, we shall turn Uganda's potential investor ecosystem into a strengthened national platform of investors and investable startups, the missing link that finally lets local capital reach entrepreneurs to create jobs and build Uganda's investable future through innovation hubs.

Who Is Attending

Students and institutions of higher learning, entrepreneurs, startups and SMEs, large corporations, the general public, government agencies, banks and capital providers, angel investors, VC and PE investors, development organisations, NGOs, media and content creators.
